City of Lodi,  
Lodi, California

## RESOLUTION NO. 2508

### RESOLUTION ENDORSING THE AUBURN DAM-FOLSOM SOUTH CANAL PROJECT

WHEREAS, the City of Lodi is located in San Joaquin County, California along the Mokelumne River; and

WHEREAS, the City of Lodi does not at present appropriate water from the Mokelumne River for its municipal Water supply, nor does it have prospects of securing rights to waters from said river since all available water has already been allocated; and

WHEREAS, the City of Lodi is entirely dependent for its water supply upon the underground water table which has been declining; and

WHEREAS, the City Council of the City of Lodi recognizes its obligation to the citizens of the community to provide water for future domestic and industrial consumption; and

WHEREAS, the Secretary of the Interior of the United States has forwarded to the Congress of the United States reports recommending the early authorization of the Auburn Dam-Folsom South Canal Project and related dnits; and

WHEREAS, the additional water which will be made available by the Auburn Dam-Folsom South Canal Project will provide a means

for the City of Lodi to meet its future needs; and

WHEREAS, these facilities are necessary for the full development of the American River as a working part of the Federal Central Valley Project; and

WHEREAS, these facilities will provide the additional benefits to persons and property in the Sacramento-San Joaquin Delta area as a flood control facility; end

WHEREAS, the economy of the City of Lodi is largely dependent upon the maintenance of strong and prosperous agricultural activities in the areas surrounding the City; and

WHEREAS, the City Council of the City of Lodi recognizes that the successful utilization of much farm land in this area is threatened by a rapidly falling ground water table which makes it imperative that a source for additional water be found and developed;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lodi endorses the Auburn Dam-Folsom South Canal Project as submitted to the Congress so that:

1. The City of Lodi will have an ample supply of water to meet its domestic and industrial needs, and
2. The agricultural economy of the areas adjacent to the City of Lodi will be maintained.

BE IT FURTHER RESOLVED that the City of Lodi urges all appropriate action, particularly by the United States Senate Interior and Insular Affairs Committee and the United States House of Representatives interior and Insular Affairs Committee,

directed toward the early authorization and construction of the Auburn Dam-Folsom South Canal Project.

Dated: February 7, 1962

I hereby certify that the foregoing Resolution No. 2508 **was** duly and regularly adopted by the City Council of the City of Lodi at a regular meeting thereof held Wednesday, February 7, 1962, **by** the following vote:

AYES: Councilmen - BROWN, KATZAKIAN, MITCHELL,  
ULLHANN and CULBERTSON

NOES: Councilmen - none

ABSENT: Councilmen - None

  
Beatrice Garibaldi  
City Clerk
